

USER GUIDE & WARRANTY

LX-ear | Custom In-Ear Monitors

Thank you for trusting us and for purchasing LX-ear custom IEMs.

Please read carefully these instructions, as they will help you have the best experience.

Custom IEMs are designed to last for years and we want to make sure that you can take advantage of this.

LISTEN RESPONSIBLY

Each time you put on your custom in-ear monitors make sure that the volume is set to a minimum level in order to protect your hearing.

After that, gradually increase volume until it's the perfect level for you.

We advise you to take a look at OSHA's (Occupational Health & Safety Administration) recommendations to make sure you take care when working in a noisy environment.

Sound Pressure Level DB(A)	Daily permitted noise duration (Hours)
90	8 Hours
95	4 Hours
100	2 Hours
105	1 Hour
110	0.5 Hours

TAKING THE FIRST STEPS

If you are a first time user, take notice that you will need a short time to adjust to wearing them.

Here's some helpful information that will guide you through the process:

Step 1 – insert monitors by sliding forward;

Step 3 – push on the faceplate until you feel it is sealed;

Step 2 – now snap backwards and fixate IEM;

Step 4 – adjust the cable and fixate behind the ear.

Remember – make sure the volume is set to a minimum level before turning them on. Protect your hearing!

MAINTENANCE

To make sure they last for as long as they are designed to, make sure you offer them a proper maintenance:

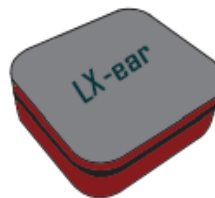

Make sure your ears are clean

Use a wet wipe for the IEMs.

use the head of the special brush to clean the hearing tubes inside the IEMs.

Store the cable and the IEMs in the designated case.

WARRANTY

We offer a **1-year warranty** for the electronic components and **30-days warranty** for the shell, if it's a fitting issue.

Repair or remake fit problems covered under this warranty include:

- fit is too tight, tall, low, or deep;
- loose fit or poor seal;
- uncomfortable to wear.

The case and the cable are not part of the warranty procedure but they will be replaced in 30 days if there is a fabrication issue. Warranty does not include shipping and handling fees.

★ *We also provide re-shelling service at a very competitive price. For more details, please contact us at iem@lx-ear.ro*

Enjoy your LX-ear Custom In-Ear Monitors!
